

Future plans

Habits

- Habit List
 - Display all the habits the user has added
 - Display the streak of each habit
 - Hold to move habit
 - We should expand by allowing more types of habits
- Calendar at top
 - Shows the day of the week
 - Can click on different days to see the progress of habits from previous days
 - Nothing happens when you click on future days
 - Swipe left to go to previous weeks
 - Swipe right to go to next weeks but shouldn't go past the current week
 - Today should be highlighted
- Edit habit
 - Can click the habit to open a small menu
 - Can add reminder with a certain time for the habit
 - Can edit how much of the task you have completed so far
 - Can skip habit for the day
 - Can edit how the habit looks, e.g its icon, colour
 - Can delete habit
- Add habit
 - Can click on add habit button to open a form that covers the whole screen
 - Select habit from a menu of suggested habits
 - Create a custom habit
 - Can customise the look of the habit
 - Can choose between build or quit habit
 - When you select quit the form simplifies so you don't specify numbers
 - For quit habit the user input type should be yes or no
